CHERUKURU POOJITHA

DATA ANALYST | SQL | POWER BI | PYTHON | EXCEL

Tirupati, Andhra Pradesh | 6305421843 | ppoojitha76@gmail.com
LinkedIn | GitHub

PROFESSIONAL SUMMARY

2026 Computer Science and Engineering graduate with internship experience in data quality validation, data preparation, exploratory analysis, and reporting. Skilled in SQL, Excel, Python, and Power BI, including data cleaning, DAX, data modeling, and dashboard development. Built analytics projects in fraud risk, digital payments, and workforce attrition. Seeking an entry-level Data Analyst role.

TECHNICAL SKILLS

SQL & Databases: MySQL, PostgreSQL, Joins, Aggregations, CTEs, Subqueries, Window Functions, Data Validation
Power BI: Power Query, DAX Measures, Data Modeling, KPI Reporting, Interactive Dashboards
Excel: Pivot Tables, Pivot Charts, VLOOKUP, XLOOKUP, Reporting
Python: Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis
Analytics & Tools: Data Quality Checks, Descriptive Statistics, Trend Analysis, Data Visualization, Git, GitHub, Jupyter Notebook, VS Code

INTERNSHIP EXPERIENCE

Data Science Intern | Besant Technologies, Bengaluru | May 2026 – October 2026

- Prepared datasets using Python, Pandas, and NumPy; reviewed data types, missing values, and duplicate records.
- Performed exploratory analysis and descriptive statistics to identify distributions, patterns, and relationships.
- Created charts and visual summaries to communicate observations from project datasets.

Data Quality Analyst Intern | Rooman Technologies | 19 May 2025 – 14 July 2025

- Executed SQL validation queries to identify missing values, duplicate records, and inconsistent entries.
- Cleaned and transformed datasets using SQL and Excel; reviewed record accuracy and investigated validation exceptions.
- Prepared KPI reports and concise summaries to support internal reporting and analysis.

PROJECTS

FinShield Fraud Detection System | MySQL, SQL, Power BI, Power Query, DAX | GitHub

- Developed a financial fraud analytics solution using rule-based scoring to flag potentially suspicious transactions for investigation.
- Used MySQL and SQL to manage and analyze transaction, customer, merchant, and fraud alert data; applied joins, aggregations, and analytical queries to examine transaction patterns.
- Built a two-page Power BI report (Executive Dashboard and Fraud Intelligence) with KPI views for transaction performance, fraud cases, risk distribution, payment methods, locations, and merchant exposure.

PhonePe Pulse Digital Payment Analysis | Power BI, SQL, DAX, Power Query | GitHub

- Prepared transaction and user data in Power Query, created model relationships, and developed DAX measures for transaction value, volume, average value, registered users, and app engagement.
- Compared performance across states, quarters, and transaction categories; identified Q4 as the highest transaction period and peer-to-peer payments as 80.11% of transaction value.

HR Analytics Dashboard | Power BI, DAX, Power Query | GitHub

- Analyzed 1,470 employee records and developed a three-page dashboard covering headcount, attrition, compensation, job satisfaction, and tenure.
- Identified 237 employee exits and a 16.12% attrition rate; compared patterns by department, job role, overtime, and income group.

EDUCATION

B.Tech, Computer Science and Engineering | Sree Rama Engineering College (JNTUA) | 2022–2026 | CGPA: 7.9/10
Intermediate (MPC) | Sri Chaitanya Junior College | 2022 | 74%
SSC | SV Children's High School | 2020 | 95%

CERTIFICATIONS & TRAINING

Data Science with AI Training | Besant Technologies | 15 Oct 2026
AI – Data Quality Analyst | Rooman Technologies | 19 May–14 Jul 2025
SQL (Advanced) Skill Certification | HackerRank | 06 Nov 2026
Data Analytics Using Power BI Workshop | Tech Tip 24 | 02 Nov 2025
